

**Distributed Sun (DSUN)**, developer of the nation's largest community solar portfolio in 2018/2019, winner of the 2018 Telly Award, the 2019 MERC Challenge, and nominated for Intersolar's Most Outstanding Project for 2018, seeks a Senior Director of Development to support the development of the Company's large corporate and utility scale solar projects. This individual will play a key role in entire lifecycle of project development.

### **Job Title: Senior Director of Development**

The Senior Director of Development is responsible for managing project development from site selection, through design, permitting, PILOT negotiation, environmental analysis, interconnection, EPC selection, construction, and launch of commercial operations. The role requires creation and management of engineered designs, project schedules and budgets to support approvals and decisions on individual projects through financial closings, NTP and COD.

This team member will develop multiple projects simultaneously, and will be responsible for all project documentation for internal and external constituents. The role will coordinate all aspects of development including cost and calendar management against key performance metrics. This individual will also be a prime contact with 3<sup>rd</sup> party partners and entities required for interconnection and to secure permits & entitlements.

This role requires review and analysis of documentation for permitting, interconnection and deployment that both guide project activities and provide all data required for company management and investors. The Senior Director of Development will also be the main contact with state and local government entities required to obtain permits for solar and energy storage projects.

### **Background Requirements**

- Minimum of Bachelor's degree in engineering, or comparable experience; civil engineering degree preferred
- Track record of 200+MW deliver on-time, under budget and at or over investor yield targets
- At least 3 years' experience in analyzing environmental and other studies required to obtain permits, and developing plans to mitigate issues associated with them
- Technical expertise in solar design; ability to work through interconnection issues
- Comfortable working with clients directly and public speaking (in town halls, for example)
- Energy storage experience a plus
- Strong Microsoft Office skills and other software related to solar design and project deployment
- Ability to travel 50%
- Strong written and oral skills
- Strong Project Management skills
- Exceptional attention to detail
- Hard working, process-oriented and works well in a collaborative environment

### **Distributed Sun**

- Competitive pay
- Incentive bonus and stock option plans
- 401(k) retirement savings plan with matching payments
- Medical and dental insurance plans with flexible spending account option
- Flexible paid time off policy and paid holidays

## **Equal Opportunity Employer**

Equal Opportunity is Distributed Sun LLC policy. Neither the Company nor any employee of the Company will discriminate against an employee or applicant for employment because of race, color, religion, sex, national origin, age, disability, personal appearance, sexual orientation, family responsibilities, matriculation, veteran status or political affiliation. Discrimination, harassment or retaliation based on these factors or any other legally protected class is against the law and against Company policy.

Distributed Sun seeks to ensure that each employee is free from discrimination and harassment in the terms and conditions of employment. The Company has a zero-tolerance policy towards discrimination or harassment based on the factors described above, and no form of such discrimination or harassment toward any employee, client, contractor, or other person in our workplace will be tolerated. This policy applies to all employment practices and personnel actions including but not limited to advertising, recruitment, testing, screening, hiring, selection for training, upgrading, transfer, demotion, layoff, termination, rates of pay, and other forms of compensation or overtime.

## **Disability Accommodation**

Distributed Sun LLC will provide reasonable accommodation to the known disabilities of any applicant or employee, if such accommodation i) is required in order for the applicant to be able to complete the application process or for the employee to perform the essential functions of the employee's job and ii) the accommodation would not cause undue hardship on the Company. Distributed Sun LLC may request medical documentation and information about any disabilities of our employees in order to best understand and accommodate them, as well as information about reasonable accommodation.

Distributed Sun LLC is also committed to not discriminating against any qualified employees or applicants because they are related to or associated with a person with a disability.
