

**Distributed Sun (DSUN)**, developer of the nation's largest community solar portfolio, seeks a Senior Vice President of Development to help lead the development of 1 GW of large corporate and utility scale solar projects between 2020 and 2023. This individual will play a critical role in project selections and execution, and operations of the business.

### **Job Title: SVP of Development**

The SVP of Development is responsible for the full life cycle of project development from site selection, through design, permitting, PILOT negotiation, environmental analysis, interconnection, EPC selection, construction, launch of commercial operations and selection of maintenance partner. The SVP of Development will lead engineered designs, project schedules and budgets to support go/no go decisions on individual projects through financial closings, NTP and COD.

This key team member will manage multiple projects simultaneously, and will lead and own all documentation regarding permitting, interconnection and construction that both guide project activities and provide all data required for investors, team members and all third parties. The role will coordinate with DSUN internal resources, including finance, and manage company junior developers. This individual will also be the prime contact with 3<sup>rd</sup> party partners and entities required for interconnection and to secure permits & entitlements.

This individual will also support strategic planning incorporating new technology and finance solutions into services for our clients.

### **Background Requirements**

- Minimum of Bachelor's degree in engineering, or comparable experience; master's degree preferred
- At least 5-10 years' demonstrated experience in developing MW-scale solar power projects; experience with utility-scale development across multiple AHJs preferred
- Track record of 200+MW delivered on-time, under budget and at or over investor yield targets
- Technical expertise in solar design; proven ability to navigate complex and challenging issues
- Comfortable working with clients directly and public speaking (in town halls, for example)
- Minimum 5 years' experience building partnerships with consulting, engineering and construction firms
- Energy storage experience a major plus
- Strong Microsoft Office skills and other software related to design and project management activities
- Ability to travel up to 50% of the time
- Very strong written and oral skills
- Strong Project Management, cost and calendar management and pro forma financial skills
- Exceptional attention to detail
- Hard working, process-oriented and works well in a collaborative environment
- Candidates with access to or control of large MW development projects or portfolios a plus

### **Distributed Sun**

- Competitive pay
- Incentive bonus plan
- Stock options pool for qualified candidates
- 401(k) retirement savings plan with match
- Medical and dental insurance plans with flexible spending account option
- Flexible paid time off policy and paid holidays

## **Equal Opportunity Employer**

Equal Opportunity is Distributed Sun LLC policy. Neither the Company nor any employee of the Company will discriminate against an employee or applicant for employment because of race, color, religion, sex, national origin, age, disability, personal appearance, sexual orientation, family responsibilities, matriculation, veteran status or political affiliation. Discrimination, harassment or retaliation based on these factors or any other legally protected class is against the law and against Company policy.

Distributed Sun seeks to ensure that each employee is free from discrimination and harassment in the terms and conditions of employment. The Company has a zero-tolerance policy towards discrimination or harassment based on the factors described above, and no form of such discrimination or harassment toward any employee, client, contractor, or other person in our workplace will be tolerated. This policy applies to all employment practices and personnel actions including but not limited to advertising, recruitment, testing, screening, hiring, selection for training, upgrading, transfer, demotion, layoff, termination, rates of pay, and other forms of compensation or overtime.

## **Disability Accommodation**

Distributed Sun LLC will provide reasonable accommodation to the known disabilities of any applicant or employee, if such accommodation i) is required in order for the applicant to be able to complete the application process or for the employee to perform the essential functions of the employee's job and ii) the accommodation would not cause undue hardship on the Company. Distributed Sun LLC may request medical documentation and information about any disabilities of our employees in order to best understand and accommodate them, as well as information about reasonable accommodation.

Distributed Sun LLC is also committed to not discriminating against any qualified employees or applicants because they are related to or associated with a person with a disability.
